To be completed by the advisor when an Eight-Semester Plan is accepted by the student:

If applicable, has student selected a minor? No Yes (Specify) _____

Notes

- ¹ This Program Completion Plan includes 24 credit hours in the minor field of study. Minor requirements range from 18 to 27 credit hours, so students will need to adapt the number of general elective and minor elective credit hours in this PCP as needed depending upon the chosen minor field of study.
- ² Due to the overlap of programs the minor cannot be in Biology, Chemistry, Physics or Physical Science.
- ³ See appropriate choices, alternatives, or substitutions under “General Education Program” in the Undergraduate Bulletin. General Education requirements in Writing, Mathematics, and Natural Sciences are explicitly satisfied by the requirements detailed in the program of study; courses should be chosen to satisfy the remaining requirements.
- ⁴ Students on scholarship or other financial aid should ensure that they enroll in a sufficient number of hours to meet the credit hour requirements of that scholarship or financial aid.
- ⁵ Courses at the 3000 level or higher, excluding CHEM 4112, 4290, 4301, PHYS 4301, 4302 and 4360.
- ⁶ Elective Minor and General Elective courses must be selected so that a minimum of 40 hours of credit is earned at the 3000 level or above.
