Notes

Electives must be chosen with the approval of advisor.

The Bachelor of Professional Studies (B.P.S.) Degree program offers associate degree holders in the areas of health and technology the opportunity to increase knowledge and leadership skills and to enhance career opportunities. A total of 124 credits must be completed, including the transfer of a maximum of 60 credits from an associate degree program. The curriculum is designed to facilitate completion of remaining general education requirements, a set of core courses, and one of two areas of concentration: (1) Health and Safety and (2) Leadership and Technology. Following is a list of some of the associate degree programs that would prepare students for transfer to the B.P.S. degree program: A.A.S. degrees in cardiopulmonary technology; computer information systems; computer information science; computer information systems technology; computer electronics technology; dental hygiene; emergency medical services; environmental/safety technology, medical laboratory technology; health information management; paramedics; respiratory therapy; and respiratory care. This list of degree programs is not all-inclusive.
