To be completed by the advisor when an Eight-Semester plan is accepted by the student:

If applicable, has student selected a minor? Type "x" as appropriate. _____ No _____ Yes
If "yes," specify: _____

Notes

[1] COMM 1300 and SPCH 1300 are the same course. Take only one of them.

[2] MATH 1390 College Algebra is a prerequisite for ECON 2320 and ECON 2321.

[3] See appropriate choices, alternatives, or substitutions under "UCA Core" in the Undergraduate Bulletin. During the first year, a student must complete a UCA Core course designated as a First-Year Seminar (FYS) in Critical Inquiry, Diversity, or Responsible Living. An approved UCA Core lab science and an approved UCA Core math course should be taken in the first two years if possible.

[4] The student will also need to complete major, minor, or general elective courses designated as fulfilling the upper-division and capstone requirements of the UCA Core. The student must complete upper-division UCA Core courses that address each of the four UCA Core areas: Diversity (D), Critical Inquiry (I), Communication (C), and Responsible Living (R). One course may address up to two areas. See entries in this Academic Map for courses within the major that fulfill the UD UCA Core requirements.

[5] Depending on the math or science courses selected to satisfy the special degree requirements for a Bachelor of Science, the student will need to adjust the number of general elective hours in this AMAP. For further details about the BS Science/Math requirement, see the *Undergraduate Bulletin*, "Degree Requirements," § 2.2.5, Bachelor of Science.
