

Recommendations for a Teaching Assistantship

Teaching Assistants (TAs) work 20 hours per week typically teaching two to four labs (total 6-8 hours in classroom). The current stipend (Fall 2010) is \$9,000 for 9 months, plus tuition and most fees.

The deadlines to be considered for a TA position are:

Fall deadline to be considered for the spring semester: Nov. 1

Spring deadlines to be considered for the following academic year: March 15 and April 30

Individuals meeting the deadline dates will have the best chance of obtaining a TA position. After the deadline dates recommendations will be accepted on a rolling basis. Recommendations for a TA position may be considered early based upon exceptional circumstances.

Minimum requirements to be considered for a TA position:

2 semesters for general biology

Genetics

2 semesters of general chemistry

Course recommendations for obtaining a TA assignment:

Biology I: Statistics, Evolution, and Ecology

Biology II: Cell Biology/Biochemistry

Microbiology for Biology Majors: Biology Major's Microbiology

Microbiology for Health Science: Majors: Some microbiology

Anatomy & Physiology: 1-2 semesters of Anatomy & Physiology
