

HEART AND SOUL

The heart and soul of any endeavor
Is very easy to define
It's how something touches the spirit
And engages and challenges the mind.

The greatest achievements in history
Started as nothing more than a dream
That someone believed in and nurtured
to someone it's value was deemed.

With work, and blood and sweat and tears
That dream caught on and began to grow
Through the years of the thick and lean times
Someone pushed to go "on with the show".

The nurturers, cheerleaders, foot soldiers all
Continue working in concert each day
For those of us who have long wandered these halls
the faint sound of a train whistle still plays.

Our history is still being written
By you, CDI's new heart and soul
The dream continues to grow and to change
And a wondrous future will unfold.

One thing that I know will never, ever change
Whether in year 1 or now year 25
The best and the brightest of hearts, souls and minds
Will still come to THIS CDI.

Debra Banks, Year 2 Class Director
CDI 2011
