Alumni Feedback

Please take the time to complete the short online survey of your satisfaction of your chemistry experience at UCA. Such feedback has allowed us to continuously improve for decades and will help us in the future.

If you prefer a paper copy of the survey, please call (501) 450-3152 or write the address above, and one will be mailed to you. Your feedback would be most helpful and much appreciated.

I'd like to also take this moment to invite you to [update](#) your personal summary on our [alumni page](#). This alumni page was initiated and maintained by our dear friend and colleague, Jerry Manion, until he passed away in July 2014. His legacy lives on in people like you who were his students. We enjoy hearing about you and your life since you left UCA.
