

2016-2017 UCA CAEP Annual Reporting Measures

Academic Year 2016-2017 [September 1, 2016 – August 31, 2017]

CAEP (Council for the Accreditation of Educator Preparation) has eight annual reporting measures which are used to provide information to the public on both program outcome and program impact. Following is the list of the CAEP measures with links to data tables and information providing supporting evidence for each measure. [Summary of data and trends available here.](#)

1. [Measure 1: Impact completers' teaching has on P-12 learning and development](#)
2. [Measure 2: Indicators of completers' teaching effectiveness](#)
3. [Measure 3: Results of employer surveys including retention and employment milestones](#)
4. [Measure 4: Results of completer surveys](#)
5. [Measure 5: Completer graduation rates including rates for successful completion of student teaching by program areas](#)
6. [Measure 6: Ability of completers to meet licensing / certification requirements](#)
7. [Measure 7: Ability of completers to be hired in education positions for which they are prepared](#)
8. [Measure 8: Student loan default rates and other consumer information](#)

Program Completer Data

Annual Program Completers

	Traditional	Nontraditional (MAT)	Combined	Advanced Programs
Completers 2016-2017 ¹	143	88	231	220
Completers 2015-2016	148	107	255	178
Completers 2014-2015	176	107	283	135
Completers 2013-2014	164	88	252	123
Completers 2012-2013	165	84	249	n/a
Completers 2011-2012	143	87	230	n/a
Completers 2010-2011	153	79	232	n/a

¹ Data Source: Associate Dean Comparison of Final Clinical Internship with OCS Licensure database. Reported to Title 2: Traditional (176); Nontraditional (96):
Data Source UCA Title 2 Report/Office of Candidate Services - <http://uca.edu/panda/panda-reports/title-ii-reports/>

Overview Chart of Data and Trends

CAEP Required Measure	Description of Data Provided	Summary of Data and Trends
<p><u>Measure 1: Impact completers' teaching has on P-12 learning and development</u></p>	<p><i>Not available at this time. Data will become available in the next two years to include:</i></p> <ul style="list-style-type: none"> • The Arkansas Department of Education will provide impact data on graduates working in tested grades/areas starting in Fall 2018 • Induction program with 2017-2018 graduates (revised structure) • Continued requests of partner school districts • New partnership with Arch Ford Educational Service Center with incentives for those who provide impact data as an additional project • Explore partnership with Tri-City Educational Service Center 	<p>N/A</p>
<p><u>Measure 2: Indicators of completers' teaching effectiveness</u></p>	<ul style="list-style-type: none"> • Observation data for graduates involved in induction project. • Induction project survey results of EPP preparation of candidates 	<p>Graduates appear to be scoring relatively lower in the following areas:</p> <ul style="list-style-type: none"> • Designing coherent instruction • Designing student assessments • Using questioning and discussion techniques • Engaging students in learning • Using assessment in instruction <p>In 2016-2017, the EPP adopted a mobile 1:1 initiative with explicit instructional focus on using technology to design instruction and to design assessments with a lens for transformative pedagogy. The graduates in this data set would not have taken part in that initiative. These data should be considered baseline with future reporting years analyzed for the impact of the mobile initiative on these areas.</p>

CAEP Required Measure	Description of Data Provided	Summary of Data and Trends
<p><u>Measure 3: Results of employer surveys including retention and employment milestones</u></p>	<ul style="list-style-type: none"> • ADE Employer (Supervisors) Survey – Initial Programs • UCA Employer Survey – Initial Programs • UCA Employer Survey – Advanced Programs. Not available at this time. Data will become available in the next two years. 	<p>Graduates appear to be scoring relatively lower in the following areas:</p> <ul style="list-style-type: none"> • Designing coherent instruction • Managing classroom procedures • Managing student behavior • Using questioning and discussion techniques • Using assessment in instruction • Working with students with special needs • Knowledge of classroom assessment. <p>In 2016-2017, the EPP adopted a mobile 1:1 initiative with explicit instructional focus on using technology to design instruction and to design assessments with a lens for transformative pedagogy. The graduates in this data set would not have taken part in that initiative. The 2016-2017 data should be considered baseline with future reporting years analyzed for the impact of the mobile initiative on the areas of designing instruction, using questioning and discussion, and using assessment in instruction.</p> <p>In 2016-2017, the EPP engaged in an analysis of current clinical practices with an eye for increasing quality clinical experiences for all candidates by offering more supported, embedded, and authentic placements. Part of that re-design included a consideration of field assignments to focus on classroom management and managing student behavior. Additionally, the re-design focused on providing candidates with more understanding of the needs of diverse students. The graduates in this data set would not have taken part in the new field foci. The 2016-2017 data should be considered baseline with future reporting years analyzed for the impact of the mobile initiative on the areas of managing classroom procedures, managing student behavior, and the understanding of the needs of diverse students.</p> <p>Additionally, qualitative comments from principals indicated a need for more information on communicating with parents and with the “science of reading”. Curriculum redesigns across departments have taken these data into consideration.</p>

CAEP Required Measure	Description of Data Provided	Summary of Data and Trends
<p><u>Measure 4: Results of completer surveys</u></p>	<ul style="list-style-type: none"> • UCA End of Program Survey – Initial Programs • ADE Novice Teacher Survey Results - Initial Programs • UCA Post-Graduation Survey – Initial Programs • UCA End of Program Survey – Advanced Program • UCA Post-Graduation Survey – Advanced Programs 	<p>Analysis of data across these measures indicate graduates score their experiences relatively lower in the following areas:</p> <ul style="list-style-type: none"> • Managing classroom procedures • Managing student behavior • Content knowledge preparation • Planning and implementing CCR standards • Communicating with families • Technology integration • Student assessments • Engaging students in questioning and discussion <p>Additionally, the surveys provide guidance for individual programs using the UCA aggregate data as a comparison benchmark. Programs are asked to analyze their performance relative to the benchmark in drafting and implementing program-specific continuous improvement.</p> <p>For advanced programs, no clear trends were evidence in year 1 data (2016-2017). Again, the surveys provide guidance for individual programs using the UCA aggregate data as a comparison benchmark. Programs are asked to analyze their performance relative to the benchmark in drafting and implementing program-specific continuous improvement.</p>
<p><u>Measure 5: Completer graduation rates including rates for successful completion of student teaching by program areas</u></p>	<ul style="list-style-type: none"> • Admission, Retention, and Tracking – Admission to Graduation – Initial Programs • Admission, Retention, and Tracking – Final Internship to Graduation – Initial Programs • Graduation Rates – Advanced Programs 	<p>2016-2017 represents the first year where data are available for analysis. The systems for tracking these data were piloted in Spring 2016 and expanded in 2016-2017. As such, these data should be considered baseline for future trend analysis. Initial data indicate that the EPP has an 83% – 96% retention rate with the majority of students who do not continue electing to withdraw from programs due to a shifting interest in the profession or a perceived lack of fit. Additionally, trends</p>

CAEP Required Measure	Description of Data Provided	Summary of Data and Trends
		<p>indicate that the EPP does have some students who complete the final internship semester but choose to graduate without licensure. This is less the case in the nontraditional MAT program.</p> <p>The majority of those candidates who choose to not license do so after experiencing the internship semester and gaining a deeper understanding of the demands of the profession. This appears to be more prevalent in some programs than in others which will be a focus of investigation in the 2018-2019 academic year.</p> <p>Data on advanced programs indicate that retention and graduation rates are as expected for many programs (e.g., MSE Special Education, SLMA Building Administration). However, other programs data are problematic. These data are shared to the program coordinators and analyzed. Program coordinators are being asked to consider focus groups and advising surveys in candidates' programs as standard practice. Currently advanced programs only collect End-of-Program survey data.</p>
<p><u>Measure 6: Ability of completers to meet licensing / certification requirements</u></p>	<ul style="list-style-type: none"> • UCA Praxis Data – Initial Programs – 2016-2017 Submitted Scores • UCA Praxis Data - Initial Programs – 2016-2017 Completers • ADE/Title II Reported Licensure Data 2016-2017 • UCA Praxis Data – Advanced Programs Licensure Data 2016-2017 	<p>Praxis data indicate strong Praxis scores across many content exams. There are programs with low initial pass rates; however, for the most part, the UCA pass rates are equal to or exceed the state and national pass rates provided by ADE and/or ETS. Programs where there are concerns have been examining content in relation to the exams and making curriculum revisions. The COE Dean has incentivized faculty to take the exams themselves to prepare for any curriculum revision process (e.g., elementary social studies, secondary math, middle school math, secondary art, gifted and talented). Data trends are being tracked to continue to inform programs of their options in program revision to seek continuous improvement.</p>

CAEP Required Measure	Description of Data Provided	Summary of Data and Trends
<p><u>Measure 7: Ability of completers to be hired in education positions for which they are prepared</u></p>	<ul style="list-style-type: none"> • ADE Novice Teacher Survey Results (EPPR) • UCA End of Program Survey – Initial Programs • UCA Post-Graduation Survey – Initial Programs • UCA Post-Graduation Survey – Advanced Programs 	<p>Data indicate that UCA EPP graduates are finding employment in districts across the state. 65% of UCA 2015-2016 initial program completers worked in Arkansas Public Schools in the 2016-2017 school year representing 14.05% of novice teachers in the state. This is a consistent trend across time. At the point of graduation, more than 40% of candidates have already secured positions prior to the summer “school hiring” season with at least 40% indicating plans to continue their education in advanced programs. Candidates in math, science, and from the nontraditional MAT programs have the highest success rates in securing early positions. Additionally, the advanced program candidates report high rates of employment commiserate with their area of advanced licensure.</p> <p>Base salaries reported by graduates indicate they are earning commiserate with Arkansas mean starting salaries for their level of earned degree.</p>
<p><u>Measure 8: Student loan default rates and other consumer information</u></p>	<ul style="list-style-type: none"> • UCA Loan Default Rate • Consumer index data 	<p>Loan default rates can indicate how well UCA is supporting students in college attendance without undue reliance on loans, particularly unsubsidized loans. The official student loan default rate for a school is calculated by measuring how many students are in default three years after graduation. Note that the default rate only takes into account federal loans, not private.</p>

Impact on P-12 Learning and Development (CAEP Standard 4.1)

Not available at this time (will become available in the next two years)

UCA does not currently have data on graduates' impact on student learning. UCA has made the following attempts to gather this data across the last 3 years with no success using the following approaches:

- Requesting data directly from partner districts
- Requesting data directly from graduates involved in induction program (see below) with incentive offered aligned with training on state-grant funded tools (GPS, ASIS)
- Requesting data directly from the Arkansas Department of Education

Plans for gathering these data moving forward include:

- The Arkansas Department of Education will provide impact data on graduates working in tested grades/areas starting in Fall 2018
- Continued induction program (revised structure)
- Continued requests of partner school districts
- New partnerships with Arch Ford Educational Service Center with incentives for those who provide impact data as an additional project
- Explore partnership with Tri-City Educational Service Center

Information on Induction Initiative

At the six-month mark, 27 of the initial cohort had maintained at least minimal level of contact with twelve of the sixteen participating graduates involved at a more substantial level and two additional participants coming into the study having graduated in December 2016. At the nine-month mark, only 14 of the participants were fully involved in the continued project. Subsequent cohorts may include a mix of graduates within their first one, two, and three years following graduation. Participant attrition is an area of ongoing research.

	ELEM	ML	SecED	MAT
Initial Cohort	8	6	4 ²	12 ³
Six-Month Cohort	7	8	4	10
Nine-Month Cohort	3	6	1	4

The project also involved 27 faculty participants who volunteered to take part in the project. Some faculty involved in the project agreed to support two teachers. This faculty group included representation from all licensure programs as follows:

	ELEM	ML	SecED	MAT	Other
Initial Cohort	4	10	4	6	3

Faculty included 9 tenured faculty, 3 tenure-track faculty, and 15 clinical faculty. Faculty participants were recruited from the dean's office in multiple emails and meetings promoting the program and asking for volunteers. Additionally, a faculty committee was formed to oversee the design and implementation of the program. The committee included representation from all programs as follows: 2 elementary/SPED faculty, 2 MAT/Middle level faculty, and 1 secondary faculty.

Realizations around participant attrition and faculty workload drove faculty to seek additional resources for the 2017-2018 academic year, which was met in the acquisition of a gift from the Sanford Inspire project. The impact of the infusion of monies into the project will be reported in subsequent years' reports.

[First-Year Teachers' Project Teacher Guidelines](#). This 1-page document outlined the expectations for the participating teachers to include: (1) sharing appropriate contact information with their faculty mentor, (2) engaging in communication with the mentor at least twice per month for PD hours using whatever method was most comfortable and convenient (e.g., text, phone, F2F, email, etc.), (3) allow mentors to visit classrooms for observations (alternatively observations could be conducted via various recommended technology options: Bug-in-Ear , video annotation), and (4) sharing contact information with the teacher's school-based mentor and school supervisor (e.g., principal, curriculum head). All participants were invited to give input for revision of this document before finalized, and their input was used to modify some language in the guidelines.

² 1 science, 1 art, 1 social studies, 1 PE/health

³ 2 early childhood, 5 middle level, 1 secondary English, 2 science, 1 drama/speech, 1 business

Faculty involved with this project also received a copy of the [First-Year Teachers' Project Mentor Guidelines](#). This 1-page document outlined the expectations for participating faculty to include: (1) sharing appropriate contact information with their first year teacher, (2) initiating communication with the teachers based on their preferred method of contact, (3) documenting time spent in communication, (4) conducting informal observations once a semester and giving the teacher substantial feedback, (5) reaching out to the teacher's school-based mentor and school supervisor to explain the project, (6) communicating to the project coordinator and committee needs for additional professional development. All faculty participants were invited to give input for revision of this document before finalized, and their input was used to modify some language in the guidelines.

The UCA First Year Teacher Project Contact Log reporting form was used to collect data on faculty- participant contact recording both amount of contact across, types of contact, and topics discussed during contact.

	Points of Contact	Average contact time spent	Total Contact Time	Range of Contact Time	Contact Per Participant Average
Six-Month Checkpoint	71	63 minutes	4473 minutes	30 min – 2 hours	2.6
Nine-Month Cumulative	91	66 minutes	6030 minutes	30 min – 2 hours	3.2

The recorded contact time between teachers and faculty in this project did indicate a continued need of the novice teachers for at least minimal levels of contact and support throughout the fall and spring semesters. While some novice teachers maintained only minimal or no contact, others showed a need for intensive and ongoing support and contact. Contact between faculty-teacher participant pairs was “led” by the novice teacher in terms of determining their preference and comfort and included many types of contact.

	Email	Video Conference	F2F	Text	Phone
Six-Month Checkpoint	33.98%	5.03%	30.98%	12.00%	18.01%
Nine-Month Cumulative	33.85%	6.16%	31.54%	13.07%	15.38%

When focusing on topics discussed during these points of contact, topics discussed by induction participants were also tracked and logged.⁴

	Lesson Planning	Content	Classroom Mgmt	Instructional Strategies	Professionalism	Other
Six-Month Checkpoint	22.81	12.28	29.25	19.87	15.79	0
Nine-Month Cumulative	21.64	10.58	30.29	21.15	15.87	.48

⁴ N is too small to disaggregate data by program for year one implementation. Aggregate data from the year 1 and year 2 implementation may yield program-based difference for continued focus and conversation.

Indicators of Teaching Effectiveness (CAEP Standard 4.2)

Induction Initiative Teacher Performance Observations

Thirteen teacher observations were logged during the Fall 2016 semester of the project on eleven different graduates: 3 elementary, 3 middle level, 3 MAT, and 1 secondary. An additional 8 observations were conducted in the Spring 2017 semester adding three new participants. Observations were conducted using the Danielson Framework (2007). The framework divides the complex activity of teaching into 22 components clustered into four domains of teaching responsibility. They are: (1) Domain 1 - Planning and Preparation, (2) Domain 2 - Classroom Environment, (3) Domain 3 - Instruction, and (4) Domain 4 - Professional Responsibilities. Each of the 22 components defines a distinct aspect of a domain; two to five elements describe each component providing four levels of teaching performance describing each component as follows: *Unsatisfactory* (scored as a “1”), *Basic* (scored as a “2”), *Proficient* (scored as a “3”), and a *Distinguished* (scored as a “4”).

Domain / Component	Fall 2016 (n = 19)	MAT (n = 5)	UG ELSE (n = 5)	UG ML (n = 7)	UG SecEd (n = 2)
1a. Demonstrating Knowledge of Content and Pedagogy	2.53	2.80	2.20	2.67	*
1b. Demonstrating Knowledge of Students	2.67	3.00	2.60	2.00	*
1c. Setting Instructional Outcomes	2.53	2.80	2.20	2.67	*
1d. Demonstrating Knowledge of Resources	2.69	3.50	2.40	2.50	*
1e. Designing Coherent Instruction	2.36	2.40	2.25	2.33	*
1f. Designing Student Assessments	2.20	2.20	1.80	2.67	*
2a. Creating an Environment of Respect and Rapport	2.63	2.80	2.40	2.57	*
2b. Establishing a Culture for Learning	2.42	2.80	2.00	2.43	*
2c. Managing Classroom Procedures	2.56	2.60	2.00	2.71	*
2d. Managing Student Behavior	2.53	2.60	2.20	2.57	*
2e. Organizing Physical Space	2.68	3.20	2.20	2.86	*
3a. Communicating With Students	2.78	3.00	2.20	3.00	*
3b. Using Questioning and Discussion Techniques	2.37	2.60	2.20	2.43	*
3c. Engaging Students in Learning	2.21	2.40	1.60	2.43	*
3d. Using Assessment in Instruction	2.11	2.00	1.80	2.29	*
3e. Demonstrating Flexibility and Responsiveness	2.79	2.80	2.60	3.00	*
4a. Reflecting on Teaching	2.57	2.60	2.20	3.00	*
4b. Maintaining Accurate Records	3.00	3.00	3.00	3.00	*
4c. Communicating with Families	3.13	3.33	3.00	3.00	*
4d. Participating in a Professional Community	2.75	2.67	2.50	3.00	*
4e. Growing and Developing Professionally	2.67	3.00	2.50	-	*
4f. Showing Professionalism	2.89	3.50	2.50	3.00	*

Induction Project Survey Responses

In May 2017, the final fourteen participants⁵ also completed the induction experience survey designed to collect their perceptions of the induction experience. Participants were asked to rate their perception regarding how well their EPP had prepared them to be a first year teacher. Questions were asked in different categories like these exemplars: “How well did your program prepare you in the following areas: knowledge of learners” and “How well did your program prepare you in the following areas: ability to work with students with special needs” and “How well did your program prepare you in the following areas: effective parent and family communication.” Participant responses indicated the following:

Survey Prompt	Mean
<i>How well did your program prepare you in the following areas:</i>	
Knowledge of learners	3.53
Student diversity	3.67
Special needs students	3.33
Creating learning environment	3.67
Managing student behavior	3.53
Knowledge of content	3.73
Implementing instruction	3.80
Use of instructional technology	3.73
Knowledge of classroom assessment	3.80
Effective family communication	3.53
TESS Domain 1 ⁶	4.00
TESS Domain 2	3.67
TESS Domain 3	3.60
TESS Domain 4	3.93

Qualitative Comments
<p>In what areas do you wish you had more instruction as a teacher candidate?</p> <ul style="list-style-type: none"> • Classroom management and managing student behavior • Experience working in a Title 1 School • Experience working with student racial and language diversity • More experience with students with disabilities and differing learning needs including explicit instruction on SPED and differentiation • Assessment

<p>Thoughts about the UCA Induction Program:</p> <ul style="list-style-type: none"> • I thought it was an awesome program. I feel like my mentor and I really connected, and she has helped me craft a career in education! • This program was incredibly helpful, particularly in the first semester, as a way to receive feedback without ratings and an avenue for asking questions.

⁵ N is too small to disaggregate data by program for year one implementation. Aggregate data from the year 1 and year 2 implementation may yield program-based difference for continued focus and conversation.

⁶ TESS = Teacher Excellence and Support System and is the Arkansas vernacular for the Danielson Framework rubric.

Satisfaction of Employers and Employment Milestones

ADE Employer (Supervisors) Survey - Initial Programs

Assessed Criteria (TESS – ALIGNED)	UCA (n = 58)		State (n = 494)	
	Mean	SD	Mean	SD
Supervisors/Employers asked to rate UCA graduate on candidate preparedness to meet Danielson expectations				
Component 1a: Knowledge of content and the structure of the discipline, Knowledge of prerequisite relationships, and Knowledge of content-related pedagogy. Demonstrating Knowledge of Content and Pedagogy	3.4	0.72	3.4	0.66
Component 1b: Knowledge of child and adolescent development, Knowledge of the learning process, Knowledge of students' skills, knowledge, and language proficiency, Knowledge of students' interests and cultural heritage, and Knowledge of students' special needs. Demonstrating Knowledge of Students	3.2	0.76	3.3	0.68
Component 1c: Value, sequence, and alignment; Clarity; Balance; and Suitability for diverse learners. Setting Instructional Outcomes	3.1	0.71	3.2	0.69
Component 1d: Resources for classroom use, Resources to extend content knowledge and pedagogy, and Resources for students. Demonstrating Knowledge of Resources	3.3	0.68	3.3	0.69
Component 1e: Learning activities, Instructional materials and resources, Instructional groups, and Lesson and unit structure. Designing Coherent Instruction	3.3	0.73	3.3	0.69
Component 1f: Congruence with instructional outcomes, Criteria and standards, Design of formative assessments, and Use for planning. Designing Student Assessments	3.2	0.80	3.2	0.73
Component 2a: Teacher interaction with students, and Student interaction with other students Creating an Environment of Respect and Rapport	3.3	0.78	3.4	0.71
Component 2b: Establishing a Culture for Learning Importance of the content, Expectations for learning and achievement, and Student pride in work	3.2	0.80	3.4	0.71
Component 2c: Managing Classroom Procedures Management of instructional groups, Management of transitions, Management of materials and supplies, Performance of non-instructional duties, and Supervision of volunteers and paraprofessionals	3.0	0.92	3.1	0.83
Component 2d: Managing Student Behavior Expectations, Monitoring of student behavior, and Response to student misbehavior	2.9	0.96	3.0	0.87
Component 2e: Organizing Physical Space Safety and accessibility, and Arrangement of furniture and use of physical resources	3.2	0.76	3.4	0.64
Component 3a: Communicating with Students Expectations for learning, Directions and procedures, Explanations of content, and Use of oral and written language	3.3	0.74	3.4	0.69
Component 3b: Using Questioning and Discussion Techniques Quality of questions, Discussion techniques, and Student participation	3.1	0.79	3.1	0.75
Component 3c: Engaging Students in Learning Activities and assignments, Grouping of students, Instructional materials and resources, and Structure and pacing	3.2	0.84	3.2	0.73

Component 3d: Using Assessment in Instruction Assessment criteria, Monitoring of student learning, Feedback to students, and Student self-assessment and monitoring of progress	3.1	0.77	3.1	0.73
Component 3e: Demonstrating Flexibility and Responsiveness Lesson adjustment, Response to students, and Persistence	3.3	0.71	3.3	0.70
Component 4a: Reflecting on Teaching Accuracy and Use in future teaching	3.2	0.76	3.3	0.71
Component 4b: Maintaining Accurate Records Student completion of assignments, Student progress in learning, and Non-instructional records.	3.3	0.66	3.4	0.65
Component 4c: Communicating with Families Information about the instructional program, Information about individual students, and Engagement of families in the instructional program	3.2	0.84	3.2	0.70
Component 4d: Participating in a Professional Community Relationships with colleagues, Involvement in a culture of professional inquiry, Service to the school, and Participation in school and district projects	3.2	0.82	3.4	0.70
Component 4e: Growing and Developing Professionally Enhancement of content knowledge and pedagogical skill, Receptivity to feedback from colleagues, and Service to the profession	3.3	0.79	3.4	0.68
Component 4f: Showing Professionalism Integrity and ethical conduct, Service to students, Advocacy, Decision making, and Compliance with school and district regulations	3.4	0.88	3.5	0.65

Scoring Key:

- 1 - Not prepared in this area
- 2 - Minimally prepared
- 3 - Adequately prepared
- 4 - Well prepared
- N/A

UCA Employer Survey – Initial Programs⁷

How well do you feel UCA prepared its graduate(s) to understand and implement the following components of effective teaching during their first year(s) of teaching?	Aggregate (n=70)	ELSE (n=29)	T&L (n=14)	SECED (n=18)	MAT (n=2)
Domain 1	3.51	3.41	3.57	3.72	*
Domain 2	3.30	3.14	3.43	3.39	*
Domain 3	3.46	3.34	3.57	3.67	*
Domain 4	3.50	3.41	3.50	3.78	*
Knowledge of learner development	3.30	3.31	3.36	3.39	*
Consideration of student diversity	3.41	3.38	3.43	3.47	*
Ability to work with students with special needs	3.18	3.14	2.92	3.35	*
Ability to create an effective learning environment	3.37	3.31	3.36	3.44	*
Managing student behavior	3.11	2.97	3.14	3.28	*
Knowledge of content	3.54	3.39	3.64	3.78	*
Implementing effective instructional methods or strategies	3.35	3.29	3.57	3.44	*
Use of instructional technology	3.57	3.56	3.57	3.56	*
Knowledge of classroom assessment	3.25	3.22	3.14	3.56	*
Effective parent and family communication	3.30	3.32	3.21	3.28	*

⁷ Survey sent to 154 principals of 200 identified UCA EPP graduates in May 2017 of the 2014-2015 & 2015-2016 Graduates identified by ADE as teaching in APS. 8 survey emails “bounced”; 3 emails found/replaced original. UCA received 80 responses but only 70 completed full survey. Response rate: 53.69% (46.98%)

In your view, what impact do you feel UCA prepared teacher(s) have on their students' learning?

Prompt/Response	Raw Number
Less impact than teachers prepared at other institutions or through other routes	5
The same impact as teachers prepared at other institutions or through other routes	24
More impact than teachers prepared at other institutions or through other routes	23
I am unable or do not feel comfortable answering this question	17

Please feel free to provide us with any other comments you think we may find useful as we seek to improve our programs and the quality of graduates we produce. Qualitative comments were coded for themes

Recommendations

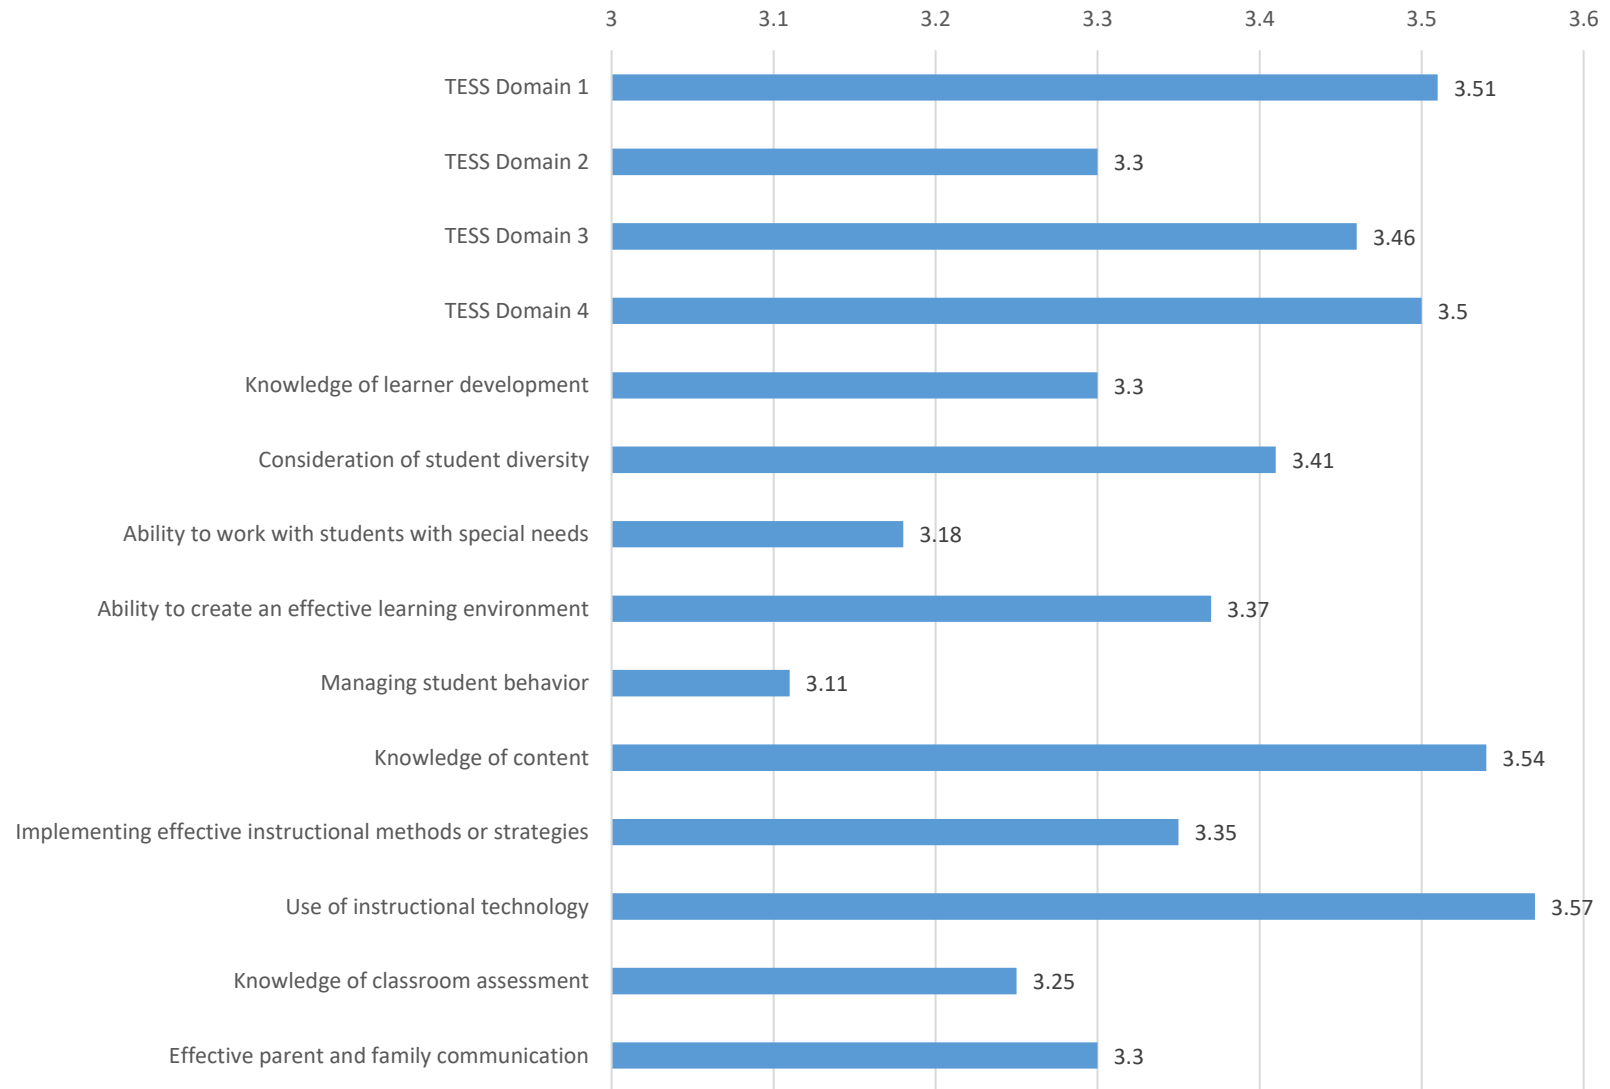

- Candidates need more support in classroom management
- More understanding of needs of diverse students to include
 - high risk,
 - SPED
 - low SES / high poverty
 - urban
- More TESS knowledge
- More hands-on practice; less theory
- More on AR teaching standards
- Communicating with parents
- More on reading, “science of reading”

Commendations

- Candidates very well prepared
- High marks for professionalism

UCA Employer Survey: 2014-2016 UCA Graduates: Aggregate Data

n = 70 (46.98% response rate)

UCA Employer Survey – Advanced Programs⁸

Not available at this time. Data will become available in the next two years.

⁸ Survey sent to 154 principals of 200 identified UCA EPP graduates in May 2017 of the 2014-2015 & 2015-2016 Graduates identified by ADE as teaching in APS. 8 survey emails “bounced”; 3 emails found/replaced original. UCA received 80 responses but only 70 completed full survey. Response rate: 53.69% (46.98%)

Satisfaction of Completers

UCA EoP Survey - Initial Programs

UCA End of Program Survey Results 2016-2017: Survey Response Rates

Program	Completers	Responses	Response Rate
Art	4	4	100
Chemistry	1	1	100
Elementary (K-6)	60	60	100
English	8	8	100
FACS	11	11	100
Life Science	2	2	100
Math	3	3	100
Middle Childhood ⁹	25	25	100
Music – Instrumental ¹⁰	9	9	100
Music - Vocal	4	4	100
Physical Education	12	11	91.7
Physical Science	1	1	100
Social Studies	2	2	100
SPED	3	3	100
MAT P-4	1	1	100
MAT 4-8	30	30	100
MAT 7-12 & K-12	54	54	100
TOTAL	230	229	99.6

⁹ Middle Childhood licensure candidates self-select a minimum of TWO licensure areas in which to certify. They may choose any combination of the 4 core areas: Math, Language Arts, Social Studies, and Science

¹⁰ Numbers for 2013-2014 represent combined music majors (vocal + instrumental)

UCA End of Program Survey Results 2016-2017: Satisfaction with Academic Advising

In reference to your education / professional courses, what is your satisfaction with College of Education Academic Advising?

Program	Satisfaction¹¹
BSE K-6 Elementary	2.57

¹⁹ The UCA Office of Instructional Research collaborated with the COE to design post-graduation surveys to distribute to students 1-, 2-, and 3-years post-graduation. May 2017 was the first year for the IR Office to handle post-graduation surveys. Data presented here were collected from a pilot in January 2017 and full implementation in May 2017 on all 2015-2016 COE graduates

²⁰ Demographics included: 1 SecEd Math, 2 ML, 10 P-4, 1 SecEd Science. No major differences between cohorts in data.

²¹ Demographics included: 9 SecEd and 4 ML. No major differences between cohorts in data.

²² Key: Unsatisfactory (1); Basic (2); Proficient (3); Distinguished (4)

²³ Key: Not at all (1); Inadequately (2); Adequately (3); Well (4); Very Well (5)

²⁴ Key: Very Dissatisfied (1) – Very Satisfied (5)

UCA End of Program Survey Results 2015-2016 --Teaching Content Areas of Employment for ML Licensure Candidates ⁴⁹

If you have a teaching position, what subject(s) will you be teaching ⁵⁰	# of graduates teaching in field	ELA	Math	Sci	SS	All Subjects	Other
All ML Majors (MAT and Undergraduate)	34	17	12	13	7	2	2
Undergraduate ML Majors	9	3	5	5	2	0	0
MAT ML Majors	25	14	7	8	5	2	2

⁴⁹ Administered to UCA initial teacher licensure candidates at the end of their graduating term as they conclude their clinical teaching experience. Candidates may select multiple options on menu.

⁵⁰ Majority of candidates teach within their licensure area so data in previous table assumes this logic (e.g., Social Studies licensure candidates were assumed to have job teaching Social Studies if teaching in field). However, middle level majors can license and teach up to 4 content areas in multiple combinations as disaggregated here for analysis

Completers by Licensure Area – Percentage Placement Rates at time of Graduation⁵¹

⁵⁴ The UCA Office of Instructional Research collaborated with the COE to design post-graduation surveys to distribute to students 1-, 2-, and 3-years post-graduation. May 2017 was the first year for the IR Office to handle post-graduation surveys. Data presented here were collected from a pilot in January 2017 and full implementation in May 2017 on all 2015-2016 COE graduates

⁵⁵ Demographics included: 1 SecEd Math, 2 ML, 10 P-4, 1 SecEd Science. No major differences between cohorts in data.

⁵⁶ Demographics included: 9 SecEd and 4 ML. No major differences between cohorts in data.

⁵⁸ Key: Dissatisfied (1); Neutral (2); Satisfied (3)

UCA Loan Default Rate

University-wide rate of default on student loans for the years 2013, 2014 and 2015, based on data provided by the Office of Federal Student Aid. This rate is provided to UCA by the USDE and reported to HLC each year. The FY 2015 rate: 8.2%.

UCA OPE ID	School	School Type	Control	Programs		FY2014	FY2013	FY2012
00109200	University of Central Arkansas	Master's Degree or Doctor's Degree	Public	Both (FFEL/FDL)	Default Rate	8.8	8.2	9.1
					No. In Default	232	218	247
					No. in Repay	2615	2639	2701
					Enrollment Figures	12,838	12,939	13,293
					Percentage Calculation	20.3	20.3	20.3

ENROLLMENT: To provide context for the Cohort Default Rate (CDR) data we include enrollment data (students enrolled at any time during the year) and a corresponding percentage (borrowers entering repayment divided by that enrollment figure). While there is no direct relationship between the timing of when a borrower entered repayment (October 1 through September 30) and any particular enrollment year, for the purpose of these data, we have chosen to use the academic year ending on the June 30 prior to the beginning of the cohort year (e.g., FY 2014 CDR Year will use 2012-2013 enrollment).
