

Admissions

Concern: Are we implementing the recommendations made by the University Admissions Committee in Spring 2010?

Result: Yes. The UAC recommended going to a minimal system whereby students must achieve a minimum high school GPA and composite score on the ACT with no single digit subscores. They also recommended we collect a fee (\$25.00) for every application. For details, see the UAC annual report (submitted in November) available on the Agendas and Minutes page.
