

**Faculty Senate**  
**May 2, 2017**

1) Welcome to new Senators

- Looking forward to a new and productive year in Faculty Senate

2) UCA's Quality Initiative for HLC's Open Pathway

- We would like for the focus of our Quality Initiative to be student advising by faculty and staff. This will cover academic advising, co-curricular advising, and various other types of advising that faculty and staff members undertake
- We would like for faculty to become involved with the project from the beginning and have ownership in the project
- We plan to build this into professional development opportunities for faculty and staff
- The Quality Initiative be provided to HLC at our Year-Four Review
