

The Department of Mathematics

GRADUATE PROGRAMS

The Department of Mathematics at the University of Central Arkansas provides exceptional masters' programs in **applied mathematics** and **mathematics education**. There are 19 graduate faculty members with doctoral degrees, which include eight in applied mathematics, eight in mathematics education and three in pure mathematics.

Qualified graduate students admitted to the programs are supported through teaching and research assistantship includes a full-tuition scholarship of **\$5,300** for an academic year and a stipend of **\$9,000** for nine months. Summer support is available. Summer teaching assistants receive **\$2,600** to teach a three-hour course during a five-week term. The department offers total 20 assistantships per year. Applications for assistantships should be received by April 1 for fall semester and November 1 for spring semester.
