

THE UNIVERSITY of CENTRAL ARKANSAS
Tenure-Track Position in Applied Statistics

The Department of Mathematics at the University of Central Arkansas is seeking to fill a tenure-track assistant professor position, beginning August 2015.

Currently, the Department has 19 full-time faculty members and 15 graduate assistants and offers undergraduate degrees with emphasis in applied mathematics, mathematics, and mathematics education. In addition UCA offers masters degrees in applied mathematics and mathematics education.

The position requires a doctorate or equivalent. Though any area of applied statistics will be considered, preference will be given to candidates in Bayesian statistics. Duties include teaching undergraduate and graduate courses and conducting research. A strong commitment to and proven ability in undergraduate teaching is required. The regular teaching load is 12 credit hours per semester. Course reduction for research is available.

Applicants should submit: a letter of application, current vita, copies of graduate transcripts, statements of teaching and research philosophy, and three letters of reference. All materials should be uploaded to: <https://jobs.uca.edu> (Position number 173046). Review of applications will begin December 8, 2014 and will continue until the position is filled.

Questions may be sent to the chair of the department at rameshg@uca.edu. Additional information about the department is available at www.uca.edu/math. UCA is an EO/AA Employer.

Conway is a growing city of over 50,000 with two private colleges and various industries in addition to the University of Central Arkansas. Residents enjoy easy access to both a large urban center (Little Rock is 30 minutes away via I-40) and pristine wildlife areas such as the Buffalo National River, and the Ozark and Ouachita Mountains.
