

## LESSON OBSERVATION LOG FOR INTERNS

**Lesson Observation Log for Interns** — Careful observation of teachers during your Internship II placement will provide opportunities for you to learn from experienced teachers in action and expand your understanding of what is expected of an accomplished teacher. Print the second page of this document and use it to log and make notes about your observations. Interns are asked to observe a variety of teachers since all teachers are effective in different ways. THIS IS NOT AN EVALUATION OF MENTORS AND/OR TEACHERS, nor should you discuss any evidence/notes with anyone other than your supervisor or the teachers you observe. Your completed *Lesson Observation Log for Interns* must be submitted as directed by your university supervisor.

Complete a total of 5 observations. One of these may be an observation of your mentor. You may also observe special programs teachers.

**Special Programs Include:**
