What is a SMART Board?

An **interactive** whiteboard

Allows you to project an image and interact with it

Used correctly - can result in highly engaging and fun lessons for students

Getting Started...

Connecting the SMART Board

Computer must be connected to a projector & SMART board with SMART drivers installed.

Orientation

Aligns the board so your touch is correctly aligned.

Troubleshooting

1. Close and/or restart.
2. Check connections.
3. Check projector source.
4. Set display to Mirror, Clone, or Extend.

SMART Learning Suite

Includes **Notebook, Ink, Response, and Lab.**

Combines Notebook with assessment, student collaboration and game-based learning software, to create enriching learning experiences.

Software similar to PowerPoint or Slides that allows you to create a lesson but with interactive elements!

Integrates formative assessment tools that allow you to track student progress

SMART Labs allow the use of student devices

What can I do with my SMART Board?

I have a SMART Learning Suite subscription.

You have full access to all Notebook features, plus SMART Learning Suite Online.

I also have SMART Notebook Limited.

Certain features will be disabled or turn to “read-only.” ([Full List](#))

I have a SMART Board & projector, but nothing else.

Write on the board & use the touch ability. (by downloading the [SMART product drivers](#))
