

LALS Approved Courses Spring 2017

The following courses will be offered in the spring. Please consult the course schedule for class times. Contact individual departments to arrange independent studies and internships.

IMPORTANT NOTE: Credits may not be applied to both the major and the minor. If a class counts for both your major and minor, you must *select* the program that will receive the credits. Example: Spanish 3313 counts toward the Spanish major and the LALS minor. A student completing this course may *not* apply the credits toward completion of the Spanish major *and* the LALS minor, but rather one program or the other. The same principle applies for those with double minors. This is a university policy enforced by the Registrar.
