<sup>1</sup> Either course fulfills the LD UCA Core, Physical Science requirement.

**Notes – *continued***

<sup>2</sup> See appropriate choices, alternatives, or substitutions under “UCA Core” in the Undergraduate Bulletin. During the first year, a student must complete a UCA Core course designated as a First-Year Seminar (FYS) in Critical Inquiry, Diversity, or Responsible Living. An approved UCA Core lab science and an approved UCA Core math course should be taken in the first two years if possible. As noted in the Academic Map, Health Sciences – Physical Therapy Emphasis majors must include the following courses in their LD UCA Core selections: MATH 1390, PSYC 1300, BIOL 1440, and CHEM 1450 or CHEM 1402.

<sup>3</sup> The student will also need to complete major, minor, or general elective courses designated as fulfilling the upper-division and capstone requirements of the UCA Core (UD UCA Core). Consult the *Undergraduate Bulletin* and your academic advisor for available UD UCA Core courses. These courses must address outcomes in each of the four Core areas: Diversity (D), Critical Inquiry (I), Communication (C), and Responsible Living (R). One course may satisfy up to two Core requirements. A student must also complete one upper-division Capstone course (Z). Consult the Undergraduate Bulletin and your academic advisor for appropriate courses that meet these requirements.
