### Notes

<sup>1</sup> This Academic Map includes 21 hours in a minor field of study. Minor requirements range from 15 to 27 credit hours, so students will need to adapt the number of general elective and minor elective credit hours in this plan as needed, depending upon the chosen field. A student’s choice of minor and special degree requirements (see note 4) may result in the total number of credit hours taken to exceed the total number required to complete the degree program.

<sup>2</sup> PSCI 1330 is a prerequisite for all upper-division Political Science courses and satisfies the American History & Government requirement in the UCA Core.

<sup>3</sup> See appropriate choices, alternatives, or substitutions under “UCA Core” in the Undergraduate Bulletin. During the first year, a student must complete a UCA Core course designated as a First-Year Seminar (FYS) in Critical Inquiry, Diversity, or Responsible Living. An approved UCA Core lab science and an approved UCA Core math course should be taken in the first two years if possible.

The student will also need to complete major, minor, or general elective courses designated as fulfilling the upper-division and capstone requirements of the UCA Core that address outcomes in each of the four areas of the UCA Core: Diversity (D), Critical Inquiry (I), Communication (C), and Responsible Living (R). These courses may count as major, minor, or elective requirements, and one course may satisfy up to two Core requirements, as long as the outcomes for both areas are assessed. The UCA Core capstone requirement (Z) will, in addition to any disciplinary goals and outcomes, address certain UCA Core goals and outcomes in Critical Inquiry, Communication, and Collaboration. See the [Department of Political Science](#) page in the *Undergraduate Bulletin* and consult your academic advisor for courses within the major that fulfill the UD UCA Core requirements.

<sup>4</sup> This degree plan assumes six hours of math to satisfy BS special degree requirements. Depending on the math or science courses selected to satisfy the special degree requirements for a Bachelor of Science, the student will need to adjust the number of general elective hours in this AMAP. For further details about the BS Science/Math requirement, see the *Undergraduate Bulletin*, “Degree Requirements,” § 2.2.5, Bachelor of Science.

<sup>5</sup> Students must complete a total of fifteen credit hours (five courses) from the Public Administration and Public Policy issue areas. Students must complete nine credit hours (three courses) in the Public Administration issue area and six credit hours (two courses) in the Public Policy issue area. At least two of the three courses taken in the Public Administration issue area must be PSCI courses; at least one course taken in the Public Policy issue area must be a PSCI course.
