To be completed by the advisor when an Eight-Semester Plan is accepted by the student:

If applicable, has student selected a minor? No Yes (Specify) _____

Notes

1. Select approved courses from the following categories of the University's General Education Program: Health Studies (1 course), Oral Communication (1 course), American History and Government (1 course), Behavioral and Social Sciences (2 courses), Fine Arts (1 course), Humanities (1 course), and World Cultural Traditions (3 courses). See Undergraduate Bulletin for lists of approved courses.
2. One of the following: CHEM 3360, CHEM 4335, CHEM 4351, CHEM 4385. Can be fulfilled fall or spring.
3. Research is required (minimum 2 credit hours) and may be begun as early as the sophomore year.
4. CHEM 4451 is offered fall semester of each even year and is on this model plan of study for fall semester of year. Therefore, if a student starts year one in an even year, then the student will need to take CHEM 3520 in the fall semester of year 2 and take the two general education courses scheduled for fall of year 2 in the fall of year 4 instead. Then, CHEM 4451 can be taken in the fall semester of year 3. This is important since CHEM 3520 is a prerequisite for CHEM 4451.
5. Given a student's choice of minor and special degree requirements, the total number of credit-hours taken may exceed the total number of credit hours required to complete the program.
