### **Notes**

1. Select approved courses from the following categories of the University's General Education Program: Health Studies (1 course), Oral Communication (1 course), American History and Government (1 course), Behavioral and Social Sciences (2 courses), Fine Arts (1 course), Humanities (1 course), and World Cultural Traditions (3 courses). See Undergraduate Bulletin for lists of approved courses.
2. Or PHYS 1410 and 1420, College Physics I and II, with advance approval of chair of chemistry department.
3. Courses for free electives and the required minor may be taken during other semesters to accommodate scheduling and availability of courses. Since the total number of required hours for a minor varies from one minor to another, you might need more or less free electives than shown here, however, you still need to meet UCA's requirement of 120 total hours for a baccalaureate degree. Given a student's choice of minor and special degree requirements, the total number of credit-hours taken may exceed the total number of credit hours required to complete the program. You must complete 40 hours of upper-level coursework for a baccalaureate degree.
