DATE

<sup>1</sup> This Program Completion Plan includes 24 hours in a minor field of study. Minor requirements range from 18-27 credit hours, so students will need to adapt the number of general elective and minor credit elective hours in this plan as needed, depending upon the chosen field. Given a student's choice of minor and special degree requirements, the total number of credit hours taken may exceed the total number of credit hours required to complete the degree.

<sup>2</sup> This degree plan assumes six hours of math to satisfy BS special degree requirements. Depending on a student's choice of special degree requirement classes, the total number of credit hours taken may exceed the total number of credit hours required to complete the degree.
