Notes

All courses with an asterisk (*) and all nursing courses (NURS) listed above are to be completed with a minimum grade of "C".

The above course requirements are specific to the UCA BSN degree program. Students who are seeking admission to another nursing program are responsible for knowing the specific requirements for that program.

¹ Courses listed for Year 1 are pre-requisite to the nursing major. Admission to UCA as a pre-nursing major does not guarantee admission to the nursing major, which begins in Year 2. Students must apply and be accepted to the major. Applications are available by January 15 and are due March 1 (uca.edu/nursing). See uca.edu/nursing for a complete list of major admission requirements and degree requirements.

² BIOL 1400 & 2405 or BIOL 2406 & 2407 will meet the UCA BSN degree requirements. Students who might apply to another nursing program should take BIOL 2406 & 2407.

³ CHEM 1402 & 2450 is the preferred sequence, but CHEM 1450 & 1451 will be accepted. High School chemistry, an ACT Math score of 21 or higher, or a co-req/pre-requisite of College Algebra is required for CHEM 1402 or 1450.

⁴ One of these courses should be taken as a First Year Seminar (FYS).

⁵ See appropriate choices, alternatives, or substitutions under "UCA Core" in the *Undergraduate Bulletin*. The student will also need to complete upper-division major courses designated as fulfilling the upper-division and capstone requirements of the UCA Core.

⁶ BIOL 2411 and NUTR 1300 are co-requisite or pre-requisite for the Year 2 fall semester nursing courses.

⁷ BIOL 4311 is co-requisite or pre-requisite for the Year 2 spring semester nursing courses.

⁸ FACS 2341 or PSYC 2370 are accepted for the UCA BSN degree. Some nursing programs which require a development course do not accept FACS 2341. If applying to another nursing program, student should check with that program regarding its requirements.

FACS 2341 or PSYC 2370 is a co-requisite or pre-requisite to the Year 3 fall semester nursing courses.

⁹ PSCI 1330 is the preferred course due to policy and legal aspects of the nursing profession. HIST 2301 or 2302 will be accepted. One of these courses must be completed prior to NURS 4220.

¹⁰ One of the statistic courses listed must be completed prior to NURS 4213.

¹¹ Prior to Year 4 spring semester all non-nursing courses should be completed. Due to the high number of clinical hours and the variable clinical times required in this semester, students will be unable to enroll in other courses. If additional hours are required, an online course without any synchronous meetings should be selected. Many full-time enrollment requirements for financial aid and scholarship requirements are reduced for the last semester of a student's program. Students should see the Financial Aid office for details regarding their aid program.
