To be completed by the advisor when an Eight-Semester Plan is accepted by the student:

If applicable, has student selected a minor? Type “x” as appropriate. _____ No _____ Yes

If “yes,” specify: _____

Notes

¹ See appropriate choices, alternatives, or substitutions under “UCA Core” in the *Undergraduate Bulletin*. During the first year, a student must complete a LD UCA Core course designated as a First-Year Seminar (FYS) in Critical Inquiry, Diversity, or Responsible Living. Note: Students may be able to take a LD UCA Core course required for the major as a FYS option. The student would then substitute another LD UCA Core course in its place on the AMAP. For example, if a student took ECON 2320 as a FYS, they would need to replace ECON 2320 on the AMAP with a different LD UCA Core course. Students pursuing the BS Economics degree will meet the LD UCA Core Critical Inquiry Social Science requirement by taking ECON 2320 or ECON 2321.

Students pursuing a BS in Economics degree will satisfy the upper-division (UD) UCA Core requirements for Critical Inquiry, Communication and the Capstone by completing the following required major courses: ECON 3302 Intermediate Macroeconomics [UD UCA Core: I, C] and ECON 4380 Senior Seminar in Economics [UD UCA Core: Z (capstone)]. Students may choose from major electives, minor courses, or general electives to meet the UD UCA Core Responsible Living upper-division requirement and the UD UCA Core Diversity Requirement. Possible major elective alternatives with the Responsible Living Designation are: ECON 3310 Public Finance [UD UCA Core: R] or ECON 3330 Environmental Economics [UD UCA Core: R]. A possible major elective with the Diversity Designation is ECON 4335 International Trade [UD UCA Core: D].

² Students completing a bachelor of science in Economics must complete one additional year (2 courses) of additional MATH courses at or above the level of MATH 1496 to meet the requirements for the BS degree. Most economics majors will use MATH 1496 and MATH 2311 to meet this requirement. However, students who use MATH 1496 to meet their lower-division

Notes – *continued*

UCA Core requirements will need to take MATH 2311 and an additional MATH course chosen in conjunction with their major advisor.

³ Students may take their LD UCA Core Science classes in any space designated LD UCA Core course. However, at least one Natural Science course must be completed in the first year.

⁴ This Academic Map includes 21 credit hours in the Minor field of study. Minor requirements range from 15 to 27 credit hours. Depending on the minor selected, the student will need to adjust the number of general elective and minor elective credit hours in this AMAP.

⁵ A student must complete four economics major elective courses from the following list: ECON 3310 Public Finance (UD UCA Core: R), ECON 3315 Labor Economics, ECON 3330 Environmental Economics (UD UCA Core: R), ECON 3382 Internship in Economics, ECON 4320 Comparative Economic Systems, ECON 4335 International Trade (UD UCA Core: D), ECON 4340 Managerial Economics, ECON 4360 Health Care Economics, ECON 4375 Economics of Developing Nations, ECON 4382 Internship in Economics, FINA 3340 Money, Banking, and Financial Markets, FINA 4332 Investments, FINA 4333 International Finance. **Students should check the *Undergraduate Bulletin* for details about prerequisites for these courses.**
