### Notes

<sup>1</sup> See appropriate choices, alternatives, or substitutions under “UCA Core” in the *Undergraduate Bulletin* and the lower-division UCA Core (LD UCA Core) Check Sheet ([core link](#)). During the first year, a student must complete a UCA Core course designated as a First-Year Seminar (FYS) in Critical Inquiry, Diversity, or Responsible Living (for this program, ENGR 1301 fulfills this requirement). Where “LD UCA Core Requirement” is listed, any LD UCA Core requirement not specifically listed elsewhere in the Academic Map (AMAP) may be used; consult your academic advisor in selecting courses to fulfill these requirements.

<sup>2</sup> The student will also need to complete major, minor, or general elective courses designated as fulfilling the upper-division and capstone requirements of the UCA Core (UD UCA Core). See annotations in this AMAP for requirements in this program that fulfill UD UCA Core requirements; the student will need to select an upper-division elective to fulfill the Diversity [UD UCA Core: D] requirement. See <http://uca.edu/academicbulletins/ud-uca-core/> for a complete list of courses approved for the UD UCA Core and capstone requirements.

<sup>3</sup> For a list of choices, see the [Computer Engineering program](#) description in the *Undergraduate Bulletin*.
