

NOW HIRING
Technical Analyst
Salary: \$50,000 to \$55,000

Job Description:

Our Technical Analyst is a full-time, permanent, on-site position. Primary duties of this position require the configuration, testing, and installation of Euronet software at the client's site. The position entails responsibility for all phases of the implementation project. The position requires direct work with clients in the implementation, testing, and training on the software products we sell. (See the Bears4Hire Portal for a full job description)

Qualifications:

- Bachelor's degree or higher in MIS, Computer Information Systems, Computer Science, or Finance (preferred)
- US work authorization is required
- 2.75 GPA or higher
- Graduating May 2020-2022
- Experience working with relational databases
- JAVA & C++ Experience, as well as working knowledge of SQL
- Experience with PC graphical applications and Windows

On-Campus Interview: October 14, 2021

Deadline to Apply: October 12, 2021 at 2:00PM

(also making schedule at STEM Career Fair)
