# SCENARIO PLANNING SIMULATION

## Scenario Planning Simulation

Explore decision making and better understand your own leadership and decision making styles through our Scenario Planning Simulation.

The simulation creates an enjoyable and challenging environment for engagement and participation in discussions about future community and economic development planning for your community.

Our scenario planning simulation guides participants through the following learning objectives:

- Ability to examine group decision making processes as it relates to economic, environmental, and societal concerns
- Recognize key elements and drivers of regional planning for community and economic development
- Analyze how short term decisions impact long term outcomes
- How decisions can impact a scenario-based implementation plan

A scenario planning simulation is not only an educational opportunity for your organization, but is a great team building program.

A Scenario Planning Simulation is the perfect activity for a variety of groups: elected officials, non-profits, Chamber of Commerce staff, and community leaders.

## Sign Me Up!

Interested in participating in a Scenario Planning Simulation?

Email the following to [sfiegel@uca.edu](mailto:sfiegel@uca.edu):

- Your name
- Your community
- Your email address and phone number
