Agenda

UCA Core Council

Tuesday May 4th, 2021

1:40 pm (On-line)

- I. Call to order: Dr. Held calls the meeting to order at approximately 1:40pm
- II. Consideration of April 6th minutes
 - a. Minutes are approved unanimously, with 2 abstentions
- III. First Year Seminars
 - a. Brief from the FYS working group of the Council on Student Success (CSS): Drs. Lesley Greybeal, Amy Baldwin, Patricia Smith. (See Appendix A)
 - b. Prolonged discussion ensues including:
 - i. Concerns regarding areas that deliver core courses that aren't consistent with the state minimum, e.g. CHBS
 - ii. Concerns about staffing the new FYS proposal with full time faculty
 - 1. Would it require more lines? Is there capacity in colleges that currently run large sections out of demand, e.g. Business
 - iii. The question is raised: What if we, or the CSS, decide we simply can't run a program like this at UCA presently? Is simply putting FYS on hiatus an option?
 - iv. Changes to the BA and BS degrees are in the works, as are conversations regarding meta-majors. How does this fit in with all those changes?
 - v. Faculty buy-in/support will be crucial to this, especially as the ones that have to deliver whatever these new FYS courses are.
 - vi. One member notes, and I paraphrase, "It seems as though we are saying we don't care what the content is so long as first year students get these success skills. Are we really proposing removing 3 credits of content for 3 credits of required success training?"
 - vii. Discussion is protracted. Dr. Held iterates this is a "wish list" a proposal for an ideal FYS program at UCA. Want Council's feedback as CSS has to deliberate on the appeal and feasibility of this proposal. Dr. Held emphasizes that FYS is a part of Core and so no changes can occur without Council's involvement. This is the beginning of a conversation.
- IV. Assessment sub-committee: Update skipped since previous discussion ran long and curriculum matters needed to be resolved.
- V. Curriculum review sub-committee
 - a. Report from Chair (Dr. Lucas)
 - i. RELG 3380: Dr. Lucas moves to approve, Dr. Watson seconds. No discussion. RELG 3380 is approved to the UD Core as a Capstone course. Vote is unanimous.
 - b. Proposals distributed:

i. None

VI. Core Council Reps: Dr. Held notes: 2021 personnel roll off, and "Thank you!" New reps for fall 2021 are needed. Deans have been contacted, some appointment have been made already.

- VII. Questions or Concerns
- VIII. Adjourn: Our next will be in fall 2021. In person, most likely.
