DENTAL

FIRST CONSIDERATION – PLEASE READ

- Residents who have already established a good patient-dentist relationship should explain their financial limitations to their dentist and request the most cost-effective treatment plan estimate before changing dentists.
- There is often more than one treatment plan that will achieve the goal of oral health. It is generally better to stick with a dentist one trusts and who knows the patient's needs as well as their medical and dental history.
- The practice's financial manager may be able to work out an acceptable payment schedule according to the patient's ability to pay for services.
- Residents who decide to try one of the locations on this list should **FIRST** contact the office by phone to find out the office's business hours and documentation requirements.
- CHARITABLE DENTAL RESOURCES The insertion of a dental resource in this listing does in no way imply an endorsement by the Arkansas Department of Health or its affiliates.
- This is public information assembled to facilitate access to economical dental care for Arkansas residents. Residents should exercise usual and customary prudence when selecting a dental care provider.
