 - Looking at the number of students in each category
 - Designing a survey specifically for these groups
 - Using data we already have (i.e., Project Management course in College of Business that yielded data from a goodly number of Veteran)
 - Will be gleaning information from the Alumni survey
 - Considering the creation of a website to publish the resources for the target groups of students such as scholarships, Minton Commuter College and lounges, etc.
- **Black Men's Experience** (Presented by Dr. Angela Webster)

- The committee has presented the data and report from the quantitative study of the black male experience
- Currently analyzing the data from the qualitative study
- Looking at audio/visual means to present this data that will include black male students
- **Campus Climate Survey** (Presented by Dr. Darshon Reed)
 - The 2021 survey was conducted; Dr. Darshon met with many constituencies to discuss the urgency and need
 - The timetable was between March 1-28; There were a few hiccups with the lists that were pulled from the system so there were adjustments made to accommodate this
 - Response rates:
 - Faculty/Staff response rate 12.7%- 443 responses
 - Student response rate 3.7%- 550 responses

- **Community Policing** (Presented by Chief Merguie)
 - During their first meeting, Chief Merguie presented the Executive Summary from the Governor's Office task force findings and best police practices or recommendations for the State
 - The recommendations included: Field training office programs, implicit bias training, ethics, duty to intervene, cultural competency, de-escalation, crisis intervention training; Chief Merguie indicated that UCAPD is already implementing these recommendations
 - More hours will be added to the racial bias training this summer to 4 hours
 - The state recommended state of the art body cameras and adequate storage; UCAPD has been implementing this for at least 10 years
 - The task force recommended training/programs on "Know Your Rights/What To Do When Pulled Over"; Chief Merguie indicated that he is hoping for literature and training/discussion points on this from the State
 - During an early meeting, the subcommittee discussed all of the training/programmings that UCAPD usually conducts throughout the year
 - Diversity, crisis intervention, response to law enforcement, drug endangerment, children's awareness, effective report writing, ethics for law enforcement, eye witness identification, foundations for sexual assault investigations, foundations for supervisory leadership, human trafficking awareness, identifying/preventing bullying, racial profiling, sexual assault investigations...etc.

 - These efforts have been combined this year
 - Had a successful survey in Fall 2020 that reported diversity activities from 2019-2020; most of the goals relate to knowledge surrounding Goal 3; second was Goal 2 in relation to support; Goal 1 was last
 - The subcommittee made some substantive changes but is still working to improve the reporting and analysis processes
- **IDI Grant Program** (Presented by Dr. Angela Webster)
 - There has been less activity this year due to COVID

- Event will include panel of legislators, lunch, and deliberative dialogue on the topic of free speech on college campuses
- **Members of the Civic Action Coordination Committee are invited to attend some or all of the event-- please let Lesley know by Friday 4/9 if you are interested in attending so we can coordinate the details**

Vote Everywhere

- Applications open for two ambassador positions-- apply by April 1st!
- Events shared by Andrew Goodman Foundation
 - **Voting Rights Briefing: The Bills That Could Change The Game.** Zoom registration link. 7:30 ET on Thursday 4/8
Description: Join AGF staff and guest speaker Hannah Klain, Equal Justice Works Fellow in the Brennan Center for Justice's Democracy Program, for a briefing on the For the People Act and the John Lewis Voting Rights Act. These two pieces of federal legislation would expand voting rights across the entire country, superseding the many state voter suppression laws that we are constantly battling, including the egregious anti-voter bill signed in Georgia just last week. Come for important updates and context, and leave with a call to action!
 - **For The People Act Action Hour**
Zoom registration link. 4:00 ET Wednesday 4/14
Description: Join the Andrew Goodman Vote Everywhere Network for an hour of action in support of the For The People Act, a once-in-a-generation opportunity to build an equitable democracy. As we continue to face relentless assaults on our voting rights—particularly for youth and voters of color—we must remember our collective power. Together we will make calls and mobilize our networks to influence our representatives across the country and get this Act passed. Bring three friends to triple your impact!

Service-Learning & Volunteerism

- Census Bureau:

Feminist Union

- Feminist Union hosted Taking Down the House with PhiRe club this past week. Due to weather it changed to a virtual experience from an outdoor viewing, but because we got licensing permissions, we are thinking of hosting another viewing this fall. If we do so, we'd love to have community partners and maybe some other events around the topics of the documentary

General Discussion/Issues

- Arkansas Legislative Session has been extended
 - University is watching bills related to nursing degrees, insurance, and more
- Follow up: How can we best keep students informed and engaged with the Arkansas legislative session?
 - Follow <https://www.facebook.com/citizensfirstcongress/>
 - Sign up to receive texts: **Text "ARLEG" to 33339**
- House and Senate Education Committee Watchers. You're invited to a weekly legislative update meeting **Tuesdays at 10:30 am** where we can review recent and upcoming bills before the Education Committees of the Arkansas House and Senate (or a different committee if you all prefer):
 - Join Zoom Meeting
 - <https://zoom.us/j/96233588806?pwd=L3UwbE1OT3Q0MzgwRStrN0V5a3JKUT09>
 - Meeting ID: 962 3358 8806
 - Passcode: 6PEFNg
 - New note: VERY contentious bill on using public funds for private school scholarships. There's a big division among republicans on it. You can read about it here: [Private-school tuition bill fails to clear state House \(Dem-Gaz\)](#)
"A proposal to fund private school tuition for qualifying students with up to \$4 million in state income tax dollars failed in the Arkansas House with bipartisan opposition Wednesday, after barely making it out of committee the day before."
- Legislative Issues Christy is Following
 - Civil Asset Forfeiture Reform: Sen. Clark's is submitting a new bill with a MUCH narrower scope. It modifies the process for 3rd party owners of seized property. SB560 (the watered down civil asset forfeiture bill) just passed the Senate 34-0 but has an uncertain future in the House. Even the watered down version has gotten a LOT of push back from the law enforcement community and it's future is very uncertain. If I were betting, I'd bet against it actually becoming a law.
 - "Good moral character" Requirements for Occupational Licensing: Rep. Dodson attempted to reintroduce language that allows boards' broad latitude for denying licenses based on applicants failing to demonstrate "good moral character". This language was removed in the last legislative session (in my opinion, correctly). These powers are often used to prohibit the awarding of occupational licenses to individuals who have been charged or convicted of crimes in the past even if they are unrelated to the occupation in question or it was a long time ago. The bill passed the house committee and the house but died in the senate committee. Here's a link to a blog post that talks about it: <https://uca.edu/acre/2021/03/17/acre-experts-testify-on-licensing-research/>
The blog post lists the start time of the ACRE people so you have to skip backwards to see Dotson's presentation and committee members questions. The Senate one is MUCH more interesting so if you're only going to watch one, I'd go there. But contrasting the two is also interesting because it's clear that the house

representatives don't have the same kinds of questions (presumably because Dotson has already convinced them of the merits previous to the meeting?). In the Senate Committee meeting UCA's own Dr. Tom Snyder also calls out Dotson (in his great way) for misrepresenting what his bill does. Dotson says it's just putting in a definition people can use instead of making it clear that the law will require its use because of the word "shall". It's an important point and I think it might have helped convince committee members that might have been uncertain. But we'll never really know.

- Renters' rights: Greg Leding is providing ongoing updates on Twitter and his email newsletter. (Not an ACRE issue so I might not be as up to date on it)
- ARKANSAS transgender youth/parents of transgender youth, we would like to talk to you for an Arkansas Democrat-Gazette story. We prefer on-the-record sources, but, due to the subject's sensitive nature, we can provide anonymity. **Please email jroberts@adgnewsroom.com**
