Advanced Roommate Search

Advanced Roommate Search is available. If you already know the name or e-mail address of the student you would like to request, you should use the Simple Roommate Search above.

Advanced Roommate Search allows you to search for a roommate using specific traits or characteristics. For example, you may be able to search for a fellow student who goes to bed after 11 p.m. and keeps his/her room neat and tidy.

Traits that you can search by are listed below. The less specific you are, the more results your search will yield.

Basic Attributes

First Name:

Middle Initial:

Information

Freshmen Applying for Fall 2018:

Students wishing to room together **MUST** apply in the same priority period :

- October 1st - December 15th 2017:
-Will have an assignment by March 1st
- December 16th - February 15th 2018:
-Will have an assignment by May 1st

All roommate requests received after February 15th cannot be guaranteed. All roommate requests made in different priority periods cannot be guaranteed.

You will not be able to search for your roommate until they have completed their housing application.

If you are having issues searching for your requested roommate, try searching by only their last name. Please enter your roommate request first. You may then enter 2 suitemate requests if applicable (please note that only the HPaW @ Bariodon, Biz @ Bear, and Stars @ Short/Denney Residential Colleges have suite style rooms)

Your roommate requests must accept your request in MyHousing before you are considered "matched". Unmatched roommate groups will not be assigned together.

Residential College program acceptance takes priority. Specific roommate requests must be accepted into the same Residential College program to receive assignments together.

Roommate requests will be honored whenever possible.

Advanced Roommate Search

Advanced Roommate Search is available. If you already know the name or e-mail address of the student you would like to request, you should use the Simple Roommate Search above.

Advanced Roommate Search allows you to search for a roommate using specific traits or characteristics. For example, you may be able to search for a fellow student who goes to bed after 11 p.m. and keeps his/her room neat and tidy.
