

UNITED WAY CAMPAIGN

UCA is partnering with the United Way of Central Arkansas to offer employees the opportunity to [invest in local programs](#) that serve the areas of greatest need in our communities. Employees can use a [virtual pledge card](#) to make a gift in support of local programs promoting health, education, and financial stability. When we choose to give to United Way, we invest in nonprofit organizations and programs that provide

- after school and early childhood education programs for children,
- meals for seniors,
- food and shelter for those in crisis,
- mental health programs,
- financial counseling and support, and more.

Help our local nonprofits continue to provide these critical services and more in our community by [making your pledge today](#). When you give, your contributions will join those of other UCA faculty and staff for an even bigger impact!

Why We Give

“When my neighbors have the resources they need, my community is better off -- and I'm better off! I give because I want to live in a community where everyone has what they need for today, and what they need to imagine a brighter tomorrow. If it's brighter for them, it's brighter for everyone who lives here.” -Donna Bowman, Schedler Honors College

“Building a better tomorrow for the people in central Arkansas is why I donate through payroll deduction. My years of involvement with Boys and Girls Clubs of America has shown me the many ways United Way has provided to our youth. Please give. No amount is too small.” -Leigh Vernon, Reynolds Performance Hall

"I choose to donate to United Way of Central Arkansas every pay period because I support their emphasis on Health and Education, and because they work with other non-profits and fill in gaps of underfunded but vital programs for our city and community." - Clayton Crockett, Department of Philosophy and Religion

“I started contributing to United Way because a close friend worked for an organization that received funds from United Way. I continue to contribute because I see the value of the United Way to our community.” -Sandra Hooper, Torreyson Library

“Why do I give to the United Way? Because I am able, grateful, and in giving, I receive.” -Patty Kohler-Evans, Department of Elementary, Literacy, and Special Education

Our campaign will conclude at the end of UCA's benefits open enrollment period, but you can continue to give at any time using the [virtual pledge card](#). Thank you for your support!
