

## University of Central Arkansas named a top school for online master's in nutrition

*UCA has been named one of the best colleges in the nation for online master's degree programs in nutrition. Six percent of postsecondary institutions earned a ranking position in 2022.*

RENO, Nev. (PRWEB) March 2, 2022

University of Central Arkansas has been ranked as one of the year's best schools for earning a master's degree in nutrition online by website OnlineMastersDegrees.org. You can see the full ranking here:

UCA's recognition comes at a time when enrollment in master's degree programs is on the rise. In October of 2021, the Council of Graduate Schools (CGS) reported a 7.3 percent increase in first-time graduate student enrollment in Fall 2020. First-time, part-time student enrollment rose by 13.5 percent. The CGS report cites the growth of online and hybrid learning options as a primary driver of these trends.

"Our goal was to find the master's programs that are making online learning a priority," said Kyle Darland, co-founder of OnlineMastersDegrees.org. "Each school in our nutrition ranking offers at least one partially or fully-online master's degree option, and for a price students can afford."

OnlineMastersDegrees.org researched and analyzed more than 7,700 accredited schools using data from the Integrated Postsecondary Education Data System (IPEDS) and from the schools themselves. The website's data science team then applied a proprietary algorithm to rank all qualifying nutrition programs. Primary data points include:

- ⇒ Number of online master's programs in subject area
- ⇒ Number of online students
- ⇒ Online program tuition and fees
- ⇒ Percentage of students offered institutional aid
- ⇒ Amount of institutional aid awarded per student

### About OnlineMastersDegrees.org

OnlineMastersDegrees.org began in 2020 to support online learning at the master's level. Our user-friendly, research-backed content helps students find scholarships, resources, financial aid, and connect with accredited colleges and universities across the country.
