

Info-FOMO is real:
you leave 65% of
information behind
in class

Three reasons note taking hasn't worked for you (yet)...

It's distracting

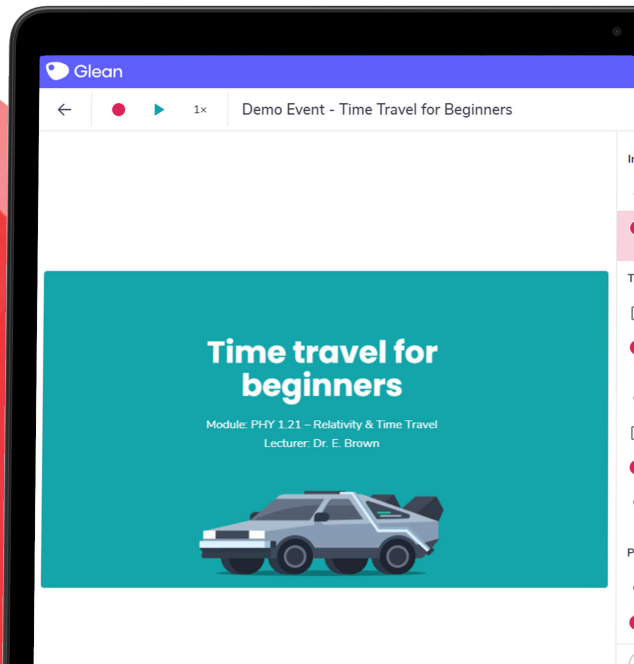

Struggling to get notes on the page can get in the way of listening.

It's challenging

Standard note taking is difficult, but being handed notes doesn't help you learn.

It's text-heavy

If handwriting isn't your thing, traditional note taking probably won't be either.

...and three reasons why Glean is the antidote

It captures everything

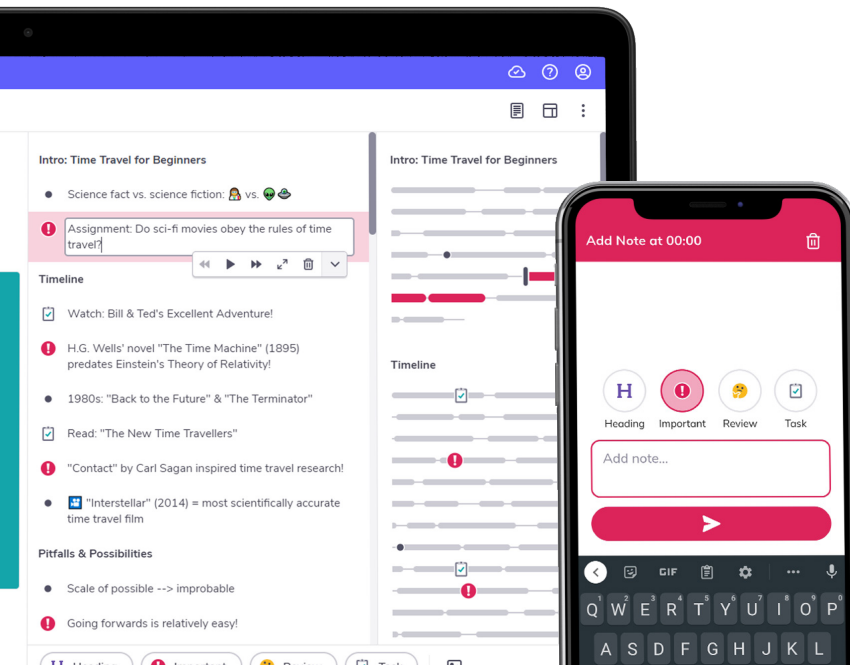

Glean captures everything from class, so you know you've left nothing behind.

It's easy to use

Glean's simple, proven note taking process helps you learn more for longer.

It's multimedia

Audio, text, slides, labels... Glean lets you capture information flexibly, on mobile or laptop.

Discover Glean

Glean makes great note taking come naturally.
Learn how it could make the difference for
you this semester!

“Before I started using Glean, I was a C minus student. I’m now an A student. I wouldn’t do my learning any other way!”

- **Natalie, Glean user**
