

UCA OT – Level II Fieldwork Rotation II: (March 28-June 17, 2022)

Course Description

These courses will provide opportunities for integration and application of academically acquired knowledge in an occupational therapy setting with emphasis on a medical model service delivery, a community-based service delivery, or a rehabilitation model service delivery system. These supervised experiences include the delivery of treatment to individuals with a variety of functional limitations.

Course Objectives for this Fieldwork

Upon completion of this course, the learner will:

1. Evaluate patients/clients in occupational performance (self-care, work, play/leisure) and identify deficits and/or potential deficits in performance components.
2. Validate evaluation data and interpretation of patient/client performance with individual/family and significant others.
3. Plan and implement a treatment program based on evaluation data and client's needs and goals.
4. Reassess the patient/client's progress and make the necessary adjustments in the treatment program.
5. Address psychosocial factors influencing occupational engagement in a variety of contexts and environments to support the development of client-centered, meaningful, occupation-based outcomes that affect health, well-being, and quality of life, as informed by the Occupational Therapy Practice Framework.
6. Demonstrate acceptable documentation skills.
7. Communicate effectively with staff, patients/clients, and family.
8. Contribute to administrative and supervisory functions in the occupational therapy department.
9. Develop appropriate collaborative relationships with other health practitioners and significant others in the practice setting.
10. Assume responsibility for professional behavior and growth.
11. Engage in independent study on topics relevant to the practice setting.

For the Educator

Click for: Weekly Review

- To be completed by the educator and student
- Submitted at the end of each week (except weeks 6 & 12)

Note for the Fieldwork Performance Evaluations (FWPE):

- Midterm Evaluations are completed at the end of week 6
- Final Evaluations are completed at the end of week 12
- FWPE portal links will be sent to fieldwork educators through email

For the Student
