THERAPIST TESTIMONIAL

"After graduating from Physical Therapy school, finding a pediatric clinic that invested in me as a new therapist was high on my priority list. Scheduled weekly meetings and frequent opportunities to collaborate with my mentor allowed me to have increased confidence that I was providing quality care for my patients early in my career. Through expressing my interests and discovering my natural talents in pediatrics, I have also been able to specialize in multiple patient populations within our clinic with the assistance of my mentor. I am grateful to have quality resources and a mentor that challenges me to progress in my skills each day."
