

Job Posting

Director of Therapy Operations in Las Vegas, NV Hospital

We are seeking a proven leader who holds licensure as a PT, OT, or SLP to be the Director of Therapy Operations (DTO) in our beautiful Las Vegas facility. A Bachelor's degree is required with a Master's or Doctoral degree preferred. A candidate should have a minimum of 5 years working experience delivering therapy services, with a minimum of 2 additional years in a leadership or management role. Leadership experience is key as the hospital strongly prefers a seasoned leader with proven experience in process improvement, change management, and someone who can create a culture of accountability.

The leadership team at the hospital is very solid. The CEO has been with the hospital for just over two years; and the CNO, who is one of our regions strongest CNOs, has been with the hospital for more than 20 years. It's a very strong team! Any DTO we hire has an assigned preceptor who works at another West Region hospital. New DTOs work very closely with their preceptor and the regional DTO to get off to the best start possible.

There's a lot of investment in our new leaders to help them be successful.

- Company invests in its leaders by sending new leadership hires to a managing class within the first 4 months on the job. This helps ensure new leaders get the company specific information they need to be successful.
- New DTOs also attend a leadership orientation program in the first 6 months of their tenure to help leaders acclimate to our company.
- New leaders are not thrown to the wolves. We nurture our new leaders to success!
