Indicate when students are formally admitted into your initial teacher certification program:
Postgraduate

Does your initial teacher certification program conditionally admit students? No

Please provide any additional about or exceptions to the admissions information provided above:

A. Individuals who are seeking licensure in a secondary (7-12) teaching field, must have thirty semester hours in the content field.

B. Individuals seeking admission to the Master of Arts in Teaching (MAT) program may use the GRE or the Praxis I for admission.

C. Praxis II subject area assessments are required to continue the MAT program, but are not necessary for the first semester of enrollment.

Section I.b Program Enrollment

Provide the number of students in the teacher preparation program in the following categories. Note that you must report on the number of students by ethnicity and race separately. Individuals who are non-Hispanic/Latino will be reported in one of the race categories. Also note that

individuals can belong to one or more racial groups, so the sum of the members of each racial category may not necessarily add up to the total number of students enrolled.

Total number of students enrolled in 2010-11:	341
Unduplicated number of males enrolled in 2010-11:	74
Unduplicated number of females enrolled in 2010-11:	267

Section I.e Program Completers

Provide the total number of initial teacher certification preparation program completers in each of the following academic years:

2010-11: 79

2009-10: 82

2008-09: 64

Section II. Annual Goals

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative routes to state certification or licensure program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. IHEs that do not have a teacher preparation program in one or more of the areas listed below can enter NA for the area(s) in which the IHE does not have that program.

Some of the growth in the program is due to "word of mouth" advertising from participants and school administrators who have employed candidates enrolled in the program. Use of current MAT candidates in recruiting events and quality advertising to school administrators will be used to target licensure shortage areas. 4. Provide any additional comments, exceptions and explanations below:

Special education is not considered an initial licensure area in Arkansas. Only teachers who hold the initial or standard teaching license (issued upon completion of the Master of Arts in Teaching degree) may add special education. Students who are enrolled in the MAT program may not be assigned to teach special education while on a provisional teaching license. English as a Second Language is an endorsement that may be added to an initial or standard teaching license. Candidates enrolled in the Master of Arts in Teaching program may not be assigned to teach English as a Second Language if working under a provisional license.

In 2010-11 there were six candidates enrolled who are seeking secondary mathematics licensure. Additionally, in 2010-11, four persons completed the MAT program with licensure in secondary mathematics. UCA does have a strong undergraduate, traditional preparation program in mathematics that, on average, will prepare almost twice the number of teachers for mathematics education per year. The MAT plays a vital role in adding to this pool of licensed mathematics teachers by allowing those who are changing careers to return for a program of study, but not having to enroll full time in an undergraduate teacher preparation program.

There were no MAT completers in 2010-11 who were licensed to teach science; however, five persons enrolled in the MAT during 2010-11 are being prepared to teach Life/Earth Science 7-12 and six are being prepared to teach Physical/Earth Science 7-12.

Section II. Assurances

Please indicate whether your institution is in compliance with the following assurances.

Training provided to prospective teachers responds to the identified needs of the local educational agencies or States where the institution's graduates are likely to teach, based on past hiring and recruitment trends.

Yes

Training provided to prospective teachers is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

Yes

Prospective special education teachers receive coursework in core academic subjects and receive training in providing instruction in core academic subjects.

NA

General education teachers receive training in providing instruction to children with disabilities.

Yes

General education teachers receive training in providing instruction to limited English proficient students.

Yes

General education teachers receive training in providing instruction to children from low-income families.

Yes

Prospective teachers receive training on how to effectively teach in urban and rural schools, as applicable.

Yes

Describe your institution's most successful strategies in meeting the assurances listed above:

Each program has designed field-based assignments to ensure that all candidates (including those in online programs) have experiences in a variety of school settings and with: (1) students from at least two ethnic groups; (2) students with exceptionalities; and (3) students who are English language learners. Further, assessment measures throughout the unit require candidates to demonstrate (1) their knowledge of multiple instructional/assessment/intervention strategies for various learning styles; (2) their ability to link to students' experiences and cultures to learning experiences; (3) capacity to incorporate multiple perspectives in their instruction and planning; and (4) how to make appropriate accommodations/modifications for the students with which they work.

Diversity statistics also are maintained for all of the public schools where candidates are placed for graduate programs and the Office of Candidate Services and Field Experience works with program coordinators to develop a tighter system for ensuring all candidates have experiences with at least two ethnic groups, students with exceptionalities, and English Language Learners. Each of these experiences is now attached to a specific assignment in a specific course. Candidates cannot move forward in the program until they have successfully completed these assignments.

Section IV. Low-Performing

Provide the following information about the approval or accreditation of your teacher preparation program.

Is your teacher preparation program currently approved or accredited?

Yes

If yes, please specify the organization(s) that approved or accredited your program:

State

NCATE

Other (specify: Higher Learning Commission/North Central Association)

Is your teacher preparation program currently under a designation as "low-performing" by the state (as per section 207(a) of the HEA of 2008)?

No

Section V. Technology

Does your program prepare teachers to:

- integrate technology effectively into curricula and instruction

Yes

- Ⓢ use technology effectively to collect data to improve teaching and learning
 Yes
- Ⓢ use technology effectively to manage data to improve teaching and learning
 Yes
- Ⓢ use technology effectively to analyze data to improve teaching and learning
 Yes

Provide a description of how your program prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of how your program prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Candidates are expected to incorporate computer technology in planning, teaching, and/or evaluating instruction in the public school classroom. Proficiencies in technology, based on ITSE standards, are evidenced by the inclusion of artifacts in the exit portfolio. The technology and its incorporation will depend upon the particular internship setting. Candidates use Chalk-n-Wire to upload key assessments, online, throughout the Master of Arts in Teaching program.
