Online

Guided Elective

Core

- This sequence includes the 45hrs required beyond the DPT degree. MS prepared students are required to take an additional 15 hours of guided electives.
- The suggested sequence provides 6hrs of coursework each semester for those who need to maintain full time status for loan deferment.
- Classroom courses are blocked to one day/evening to facilitate working in the clinic.
- Online courses are defined as having at least 50% online content. Some in-person class meetings may be scheduled.
- The PSYC-CSD series should be taken in order. Online coursework could be taken in Year 1.
- The second year (Fall-Spr) would be for taking guided electives (Total of 6hrs) and any other Core not taken in year 1.
- Students could potentially be ready for Quals by Summer 2.
- Note that course schedules are subject to change and should be confirmed before enrollment.
