

## **University Scholarship Policy Scholarship Stacking Policy**

Per Arkansas Code 6-80-105, if a student receives scholarships in excess of the student's cost of attendance, the student will receive a reduction in awards. Per Arkansas Department of Higher Education's scholarship stacking policy, Arkansas Challenge will be reduced first. Per University procedures, if further reduction is necessary, scholarships will then be reduced in the following order: University Academic, University Departmental/Performance, other ADHE scholarships/grants, other public funds. Although private scholarships/grants are included in calculating the student aid package, the University will not reduce private scholarships/grants.

Arkansas Department of Higher Education's full scholarship stacking policy can be found at:
