

University Scholarship Policy

Audit Courses

Last Revision: 10/23

A student may change a course from "Credit" to an "Audit" during open registration periods. If the student is receiving a university academic, departmental/performance, other, restricted, or international scholarship then the enrolled hours, and credits, associated with an audit course will not be included for scholarship disbursement and renewal eligibility. The costs associated with audit courses are not covered by university academic, departmental/performance, other, restricted, or international scholarships.
